

Daily Weekday Checklists

These checklists are intended for preschool and elementary aged children and can be used by parents to help their children gain independence with their daily morning and evening routines.

I recommend printing and laminating the checklists to use with a dry erase marker and perhaps offering a reward (like a special treat) when the child completes the checklist without reminders, either for the first time or for a length of time.

Executive skills addressed: Task initiation, sustained attention and working memory.

Morning Checklist

Reminders
